

REMARKS/ARGUMENTS

Favorable reconsideration of this application is respectfully requested.

The Applicants have amended the claims to delete elements in the claims and, in some cases, to add elements to the claims. In particular, claims 1, 2, 5 and 11 recite "an image signal applied to each pixel is retained only once during the one frame period" which is believed to be supported by, for example, Figs. 16 and 17 and page 163.

It is respectfully submitted that the present application is in condition for allowance and a favorable decision to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
